Easy Clean

Date of compilation: 2015-05-15

1. Identification

Product Name: Easy Clean Product identifier: 209-1

Relevant identified uses of the substance or mixture and uses

advised against:

Automotive reconditioning product

Company: Auto Brite Inc.

107 Sin Nombre Ct NE Albuquerque, NM 87113

505-342-2778

Emergency telephone number: INFOTRAC: 1-800-535-5053

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard Symbols:

GHS Classification: Skin Corrosion/Irritation Category 2

Serious Eye Damage/Eye Irritation Category 2A

GHS Signal Word: Warning

GHS Hazard Statements: Causes skin irritation.

Causes serious eye irritation.

GHS Precautionary Statements:

Safety Precautions: Wash thoroughly after handling.

Wear protective gloves/protective clothing/eye protection/face protection.

First Aid Measures: IF ON SKIN: Wash with plenty of soap and water.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses,

if present and easy to do. Continue rinsing. Specific treatment (see on this label).

If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention.

Easy Clean

Take off contaminated clothing and wash before reuse.

Easy Clean

Hazards not otherwise

classified:

No data available

3. Composition/information on ingredients

Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredient	
Sodium hydroxide	1310-73-2	0.5 - 1.5	
Sodium carbonate	497-19-8	0.5 - 1.5	

the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

4. First-aid measures

Eye Contact: Immediately flush eyes with plenty of water for at least 20 minutes

retracting eyelids often. This corrosive material can cause

immediate and permanent eye damage. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention and monitor the eye daily as advised

by your physician.

Skin Contact: Wash with soap and water under a drench shower. Remove

contaminated clothing, launder immediately, and discard

contaminated leather goods. Get medical attention immediately.

Inhalation: Remove to fresh air. If breathing is difficult, have a trained

> individual administer oxygen. If not breathing, give artificial respiration and have a trained individual administer oxygen. Get

medical attention immediately

Ingestion: Corrosive. Do not induce vomiting! Drink one glass of water

followed by milk if available. Seek medical attention immediately

and give the medical care provider with this MSDS.

No additional first aid information available

Immediate medical attention

and special treatment needed,:

5. Fire-fighting measures

Suitable extinguishing media: Use alcohol resistant foam, carbon dioxide, or dry chemical when

> fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot

burning liquid.

Unsuitable extinguishing media: No data available

Fire and/or Explosion Hazards: Material may be ignited only if preheated to temperatures above

Easy Clean

Hazardous Combustion

Products:

the high flash point, for example in a fire.

Carbon dioxide, Carbon monoxide

Special protective equipment and precautions for fire-

fighters:

Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Use

methods for the surrounding fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: Exposure to the spilled material may be severely irritating or toxic. Follow personal protective equipment recommendations found in Section VIII of this MSDS. Personal protective equipment needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the expertise of employees in the area responding to the spill. Never exceed any occupational exposure limits.

Methods and material for containment and cleaning up:

No special spill clean-up considerations. Collect and discard in

regular trash.

7. Handling and storage

Precautions for safe handling: Toxic or severely irritating material. Avoid contacting and avoid

breathing the material. Use only in a well ventilated area.

Conditions for safe storage: Materials to Avoid/Chemical

Incompatibility::

Store in a cool dry place. Isolate from incompatible materials.
Strong oxidizing agents Acids Metals Water Organic halides

8. Exposure controls/personal protection

Limits:

Chemical Component	OSHA PEL	ACGIH TLV-TWA	ACGIH STEL
Sodium hydroxide	2 mg/m3	2 mg/m3	

Appropriate engineering controls.:

Local exhaust ventilation, process enclosures, or other engineering controls are necessary when handling or using this product to avoid overexposure. Engineering controls must be designed to meet the OSHA chemical specific standard in 29 CFR 1910. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits Engineering controls must be designed to control vapor concentrations to below levels published in 29 CFR 1910.1000. Facilities storing or using this material should be equipped with an

Easy Clean

eyewash and safety shower.

Eye Protection: Wear chemical splash goggles when handling this product.

Additionally, wear a face shield when the possibility of splashing of liquid exists. Do not wear contact lenses. Have an eye wash station

available. Wear goggles and a Face shield

Skin Protection: Avoid skin contact by wearing chemically resistant gloves, an apron

and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Where contact is likely, wear chemical resistant gloves, a chemical suit, rubber boots, and chemical safety goggles plus a face shield Have a safety shower

available

Respiratory Protection: Respiratory protection must be used when handling this product.

Use respirators only if ventilation cannot be used to eliminate symptoms or reduce the exposure to below acceptable levels. A supplied air type respirator may be required. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator. Wear a NIOSH approved respirator if any exposure is

possible.

Other Protective Equipment: Wear goggles and a Face shield Where contact is likely, wear

chemical resistant gloves, a chemical suit, rubber boots, and chemical safety goggles plus a face shield Have a safety shower

available

9. Physical and chemical properties

Appearance (physical state):

Color:

Blue
Odor:

Fresh

Odor threshold: No data available

pH: 10.5 - 11

Melting Point/Freezing Point (°C): No data available

Initial Boiling Point and Boiling Range (°C): 100
Flash Point (°C): 200 500

Evaporation Rate:

Flammability (solid, gas):

Upper Flammable/Explosive Limit:

Lower Flammable/Explosive Limit:

Vapor Pressure:

Vapor Density:

No data available

No data available

No data available

Relative Density: 1.05

Easy Clean

Solubility(ies):

Partition coefficient: n-octanol/water:

Auto-ignition Temperature (°C):

No data available

No data available

No data available

Viscosity:

No data available

10. Stability and reactivity

Reactivity: No data available

Chemical stability: Stable under normal conditions.

Conditions to avoid: None known. Contamination Contact with water Moisture (will

lead to product performance degradation).

Incompatible materials: Strong oxidiz

Hazardous decomposition

products:

Strong oxidizing agents Acids Metals Water Organic halides

Phosphorus compounds

11. Toxicological information

Likely routes of exposure (inhalation, ingestion, skin and eye contact):

Contact, Inhalation, Ingestion, Skin contact, Eye contact, Skin contact, Eye contact

Immediate (Acute) Health Effects by Route of Exposure:

Inhalation Irritation: Can be corrosive to the respiratory tract causing severe irritation and tissue damage.

Skin Contact: Corrosive to skin tissue. Can cause chemical burns. Corrosive, causes skin burns and

permanent skin damage (scarring). May cause skin irritation.

Skin Absorption: Minimal hazard in normal industrial use. May cause gastrointestinal discomfort **Eye Contact:** Corrosive to eye tissue. Can cause severe irritation, tearing, and burns that can

quickly lead to permanent injury including blindness. Corrosive. Will cause eye burns and permanent tissue damage. Substance causes moderate irritation.

Ingestion Irritation: Corrosive to tissue. Can cause severe and permanent damage to mouth, throat,

stomach. Aspiration may lead to lung damage. Corrosive to tissue. Can cause severe and permanent damage to mouth, throat, stomach. Aspiration may lead to lung

damage.

Ingestion Toxicity: Harmful if swallowed. May cause systemic poisoning.

Long-Term (Chronic) Health Effects:

Carcinogenicity: Contains a known human carcinogen Cancer hazard! Contains a material that can

cause cancer.

Reproductive andNo data available to indicate product or any components present at greater than

Developmental Toxicity: 0.1% may cause birth defects.

Mutagenicity:No data available to indicate product or any components present at greater than

0.1% is mutagenic or genotoxic.

Inhalation: Upon prolonged and/or repeated exposure, can be corrosive to the respiratory tract

Easy Clean

causing severe irritation and tissue damage.

Skin Contact: Upon prolonged or repeated contact, corrosive to skin tissue. Can cause chemical

burns.

Skin Absorption: Upon prolonged or repeated exposure, minimal hazard in normal industrial use.

May cause gastrointestinal discomfort.

Component Toxicology Data

Chemical Component	Oral LD50	Dermal LD50	Inhalation LC50
No data available			

Has the chemical been classified as a Carcinogen by NTP, IARC or OSHA.

Chemical Name	OSHA Carcinogen	IARC Carcinogen	NTP Carcinogen
No data available			

12. Ecological information

Ecotoxicity (aquatic and

This material is not expected to be harmful to the ecology.

terrestrial, where available):

Persistence and degradability: No data available Mobility in soil: No data available Other adverse effects (such as No data available

hazardous to the ozone layer):

Ecological Toxicity Data

Chemical Component	Aquatic EC50 Crustacea	Aquatic ERC50 Algae	Aquatic LC50 Fish
No data available			

13. Disposal considerations

Description of waste residues: Spent or discarded material is not expected to be a hazardous

waste

Waste treatment methods

(including packaging):

Dispose of in a landfill. Disposal is not likely to be regulated.

14. Transport information

UN proper shipping name: Refer to bill of lading or container label for DOT or other

transportation hazard classification, if any.

Easy Clean

15. Regulatory information

TSCA Status: All components in this product are on the TSCA Inventory.

Regulated Components:

Chemical Component	CAS number and other unique identifiers	CERCLA	SARA EHS	SARA 313	California Prop 65
Sodium hydroxide	1310-73-2	N	N	Υ	N

16. Other information, including date of preparation or last revision.

Revision Date: 03-19-2015

Revision Number: 2
