

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Date of compilation: 2015-05-15

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Product name: **Radiance 305-1**

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses vehicle wax

#### 1.3 Details of the supplier of the safety data sheet

Auto Brite Inc.  
107 Sin Nombre Ct NE  
Albuquerque, NM 87113  
505-342-2778

#### 1.4 Emergency telephone number

Emergency information service **Infotrac 1-800-535-5053**  
24 hour emergency telephone number.

### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture

##### Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

| Annex | - | Hazard class and category | -      | Hazard statement code(s) |      |
|-------|---|---------------------------|--------|--------------------------|------|
| B.6   |   | flammable liquids         | Cat. 3 | (Flam. Liq. 3)           | H226 |
| A.10  |   | aspiration hazard         | Cat. 1 | (Asp. Tox. 1)            | H304 |

##### Remarks

For full text of H-phrases: see SECTION 16.

##### Hazards not otherwise classified

May be harmful in contact with skin (GHS category 5: acutely toxic - dermal).

##### The most important adverse physicochemical, human health and environmental effects

The product is combustible and can be ignited by potential ignition sources.

#### 2.2 Label elements

##### Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

Signal word **danger**

##### Pictograms

GHS02, GHS08

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Date of compilation: 2015-05-15

### Hazard statements

H226 Flammable liquid and vapor.  
H304 May be fatal if swallowed and enters airways.

### Precautionary statements

#### Precautionary statements - prevention

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

#### Precautionary statements - response

IF SWALLOWED: immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting.

In case of fire: Use sand, carbon dioxide or powder extinguisher to extinguish.

#### Precautionary statements - storage

Store in a well-ventilated place. Keep cool.

#### Precautionary statements - disposal

Dispose of contents/container to industrial combustion plant.

#### Hazardous ingredients for labelling

Distillates (petroleum), hydrotreated light

### 2.3 Other hazards

There is no additional information.

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

not relevant (mixture)

### 3.2 Mixtures

#### Description of the mixture

| Name of substance                           | Identifier           | Wt%       | Hazard class and category |                             | Hazard statement |
|---|----------------------|-----------|---------------------------|-----------------------------|------------------|
| Distillates (petroleum), hydrotreated light | CAS No<br>64742-47-8 | 50 - < 75 | B.6<br>A.10               | Flam. Liq. 4<br>Asp. Tox. 1 | H227<br>H304     |

For full text of abbreviations: see SECTION 16.

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Date of compilation: 2015-05-15

### 4.1 Description of first aid measures

#### General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

#### Following inhalation

Provide fresh air.

#### Following skin contact

After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of water.

#### Following eye contact

Irrigate copiously with clean, fresh water, holding the eyelids apart. Remove contact lenses, if present and easy to do. Continue rinsing.

#### Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media

water spray, alcohol resistant foam, BC-powder, carbon dioxide (CO<sub>2</sub>)

#### Unsuitable extinguishing media

water jet

### 5.2 Special hazards arising from the substance or mixture

In case of insufficient ventilation and/or in use, may form flammable/explosive vapor-air mixture. Solvent vapors are heavier than air and may spread along floors. Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures. Explosive when mixed with combustible material.

#### Hazardous combustion products

nitrogen oxides (NO<sub>x</sub>), carbon monoxide (CO), carbon dioxide (CO<sub>2</sub>)

### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Co-ordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Date of compilation: 2015-05-15

### SECTION 6: Accidents and emergency procedures

#### 6.1 Personal precautions, protective equipment and emergency procedures

##### For non-emergency personnel

Remove persons to safety.

##### For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

#### 6.2 Environmental precautions

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose it.

#### 6.3 Methods and material for containment and cleaning up

##### Advices on how to contain a spill

Covering of drains.

##### Advices on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage (sawdust, kieselgur (diatomite), sand, universal binder).

##### Appropriate containment techniques

Use of adsorbent materials.

##### Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

##### Reference to other sections

Hazardous combustion products: see section 5. Personal precautions: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

##### Recommendations

##### Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Avoidance of ignition sources. Keep away from sources of ignition - No smoking. Take precautionary measures against static discharge. Use only in well-ventilated areas. Due to danger of explosion, prevent leakage of vapours into cellars, flues and ditches. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools.

##### Warning

Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures. Vapors are heavier than air, spread along floors and form explosive mixtures with air. Vapors may form explosive mixtures with air.

##### Advice on general occupational hygiene

Wash hands after use. Do not to eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Version number: GHS 1.0

Date of compilation: 2015-05-15

### 7.2 Conditions for safe storage, including any incompatibilities

#### Managing of associated risks

##### • Explosive atmospheres

Keep container tightly closed and in a well-ventilated place. Use local and general ventilation. Keep cool. Protect from sunlight.

##### • Flammability hazards

Keep away from sources of ignition - No smoking. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharge. Protect from sunlight.

#### Incompatible substances or mixtures

Observe compatible storage of chemicals.

#### Control of the effects

#### Protect against external exposure, such as

frost

#### Consideration of other advice

#### Ventilation requirements

Use local and general ventilation. Ground/bond container and receiving equipment.

#### Packaging compatibilities

Only packagings which are approved (e.g. acc. to ADR) may be used.

### 7.3 Specific end use(s)

See section 16 for a general overview.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

#### National limit values

#### Occupational exposure limit values (Workplace Exposure Limits)

#### Relevant DNELs/DMELs/PNECs and other threshold levels

No data available.

### 8.2 Exposure controls

#### Appropriate engineering controls

General ventilation.

#### Individual protection measures (personal protective equipment)

#### Eye/face protection

Wear eye/face protection.

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Version number: GHS 1.0

Date of compilation: 2015-05-15

### Skin protection

#### • hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

#### • other protection measures

Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

### Respiratory protection

In case of inadequate ventilation wear respiratory protection.

### Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

|                |              |
|----------------|--------------|
| Physical state | liquid       |
| Color          | light yellow |
| Odor           | fruity       |

#### Other physical and chemical parameters

|   |   |
|---|---|
| pH (value)                              | not determined                                  |
| Melting point/freezing point            | not determined                                  |
| Initial boiling point and boiling range | >65 °C at 1 atm                                 |
| Flash point                             | 44 °C at 101.3 kPa 110 °F at 1 atm (closed cup) |
| Evaporation rate                        | not determined                                  |
| Flammability (solid, gas)               | not relevant (fluid)                            |
| Explosive limits                        | not determined                                  |
| Vapor pressure                          | 31.69 hPa at 25 °C                              |
| Density                                 | 0.88 g/cm <sup>3</sup>                          |
| Solubility(ies)                         | not determined                                  |
| Partition coefficient                   |   |
| n-octanol/water (log KOW)               | This information is not available.              |
| Auto-ignition temperature               | not determined                                  |
| Viscosity                               | not determined                                  |
| Explosive properties                    | none  |
| Oxidizing properties                    | none  |

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Version number: GHS 1.0

Date of compilation: 2015-05-15

### SECTION 10: Stability and reactivity

#### 10.1 Reactivity

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials". The mixture contains reactive substance(s): risk of ignition

• **if heated**

risk of ignition

#### 10.2 Chemical stability

See below "Conditions to avoid".

#### 10.3 Possibility of hazardous reactions

No known hazardous reactions.

#### 10.4 Conditions to avoid

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

**Hints to prevent fire or explosion**

Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

**Physical stresses which might result in a hazardous situation and have to be avoided**

strong shocks

#### 10.5 Incompatible materials

There is no additional information.

**Hazardous decomposition products**

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

### SECTION 11: Toxicological information

#### 11.1 Information on toxicological effects

Test data are not available for the complete mixture.

**Classification procedure**

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

**Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)**

**Acute toxicity**

Shall not be classified as acutely toxic.

**Skin corrosion/irritation**

Shall not be classified as corrosive/irritant to skin.

**Respiratory or skin sensitization**

Shall not be classified as a respiratory or skin sensitizer.

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Version number: GHS 1.0

Date of compilation: 2015-05-15

### Summary of evaluation of the CMR properties

Shall not be classified as germ cell mutagenic, carcinogenic nor as a reproductive toxicant.

#### Carcinogenicity

- National Toxicology Program (United States): none of the ingredients are listed
- IARC Monographs none of the ingredients are listed

### Specific target organ toxicity (STOT)

Shall not be classified as a specific target organ toxicant.

### Aspiration hazard

May be fatal if swallowed and enters airways.

## SECTION 12: Ecological information

### 12.1 Toxicity

#### Aquatic toxicity (acute)

Shall not be classified as hazardous to the aquatic environment.

### 12.2 Process of degradability

Data are not available.

### 12.3 Bioaccumulative potential

Data are not available.

### 12.4 Mobility in soil

Data are not available.

### 12.5 Results of PBT and vPvB assessment

Data are not available.

### 12.6 Other adverse effects

Data are not available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

#### Waste treatment-relevant information

Solvent reclamation/regeneration.

#### Sewage disposal-relevant information

Do not empty into drains. Avoid release to the environment. Refer to special instructions/safety data sheets.

#### Waste treatment of containers/packages

Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

# Safety Data Sheet

acc. to OSHA, Appendix D to § 1910.1200

## Radiance

Version number: GHS 1.0

Date of compilation: 2015-05-15

### 13.3 Remarks

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

## SECTION 14: Transport information

|             |   |  |
